SUMMARY

Full-Stack Developer and DevOps Enthusiast skilled in building scalable web applications using Java, Spring Boot, React JS, and MySQL. Experienced in architecting secure, multi-role web architectures and collaborating effectively in fast-paced hackathon environments to write clean, maintainable code.

TECHNICAL SKILLS

- **Frontend:** React JS, CSS3, JavaScript (ES6+), HTML5
- **Backend:** Java, Spring Boot, Microservices, REST APIs
- **Database & Tools:** MySQL, Git, Android Studio
- **Alternative Core:** React Native, C/C++, Python

TECHNICAL PROJECTS

AI Pothole Detection & Mapping System | Feb 2026 – Mar 2026

- Engineered a robust full-stack solution with a **Spring Boot REST API** and a responsive **React.js** frontend to stream, process, and log geospatial road hazard data efficiently.
- Integrated **Gemini AI** and **React-Leaflet** to deliver real-time, geolocated pothole analysis, enabling automated severity verification and live hazard mapping on a centralized dashboard.

Elite Sponsorship Platform | Lead Developer | Jan 2026 – Feb 2026

- Architected a full-stack corporate sponsorship platform using **Spring Boot** and **React**, engineering role-based access control (RBAC) and an automated tracking system for student developer proposals.

EXPERIENCE

AWS APAC Solutions Architecture virtual experience program on Forage | Mar 2025

- Architected and deployed an AWS Elastic Beanstalk infrastructure to resolve critical system latency, delivering a scalable, cost-optimized hosting solution alongside clear, client-facing financial and technical roadmaps.

Electronic Arts Software Engineering virtual experience program on Forage | Dec 2024

- Spearheaded a new *EA Sports College Football* feature proposal, successfully aligning stakeholders and engineering the underlying architecture using robust C++ class definitions.
- Enhanced runtime performance and system stability by identifying code bottlenecks, patching critical bugs, and refactoring legacy data structures.

EDUCATION

BCA Specialised in DevOps & Automation | 2024 -2027 (Expected)

Rathinam College of Arts and Science, Coimbatore, Tamil Nadu
Current CGPA: 7.70 / 10.0

ACHIEVEMENTS

HackerRank Bronze Badge | Problem Solving & Java

- Demonstrated Strong foundational engineering skills by securing a HackerRank Silver Badge, demonstrating mastery over core Java mechanics, multi-threading concepts, memory efficiency, and robust algorithmic problem-solving.

Hack with GDG S3 | KSR Engineering College

- Spearheaded a cross-functional team through a high-pressure, 36-hour hackathon to rapidly design, develop, and deploy the “Elite-Sponsorship” full stack platform under tight continuous-coding constraints.

Interofest Hackathon

- Demonstrated strong stakeholder management and mental resilience by dissecting critical judge evaluations under pressure and instantly formulating an actionable roadmap for advanced system updates.
